Access Control Systems for Gated Communities

GateAccess.net iOS/Android App

The GateAccess.net web site offers residents access to their data. Likewise, the GateAccess.net app, available for iOS and Android devices, allows residents of communities who subscribe to GateAccess.net access to their files from their mobile devices.

The App's Login Screen

The login screen of the app allows users to log into their community file. Users may choose to save the community code (if they only have property in ONE community that uses GateAccess.net), the username, the password, or any combination thereof.

The username and the password are the same ones used with the GateAccess.net website.

If Auto Login is selected, the login screen will be bypassed on first login.

The App's Main Menu

The main menu of the app shows all options available to the community.

A brief one-liner is listed under each line items, describing what's available to the users.

Clicking on any of the available areas will open the screen for the area selected.

NOTE: links are not active in the app under Community Info and News.

The Guest List

The guest list area allows the user to modify his or her guest list.

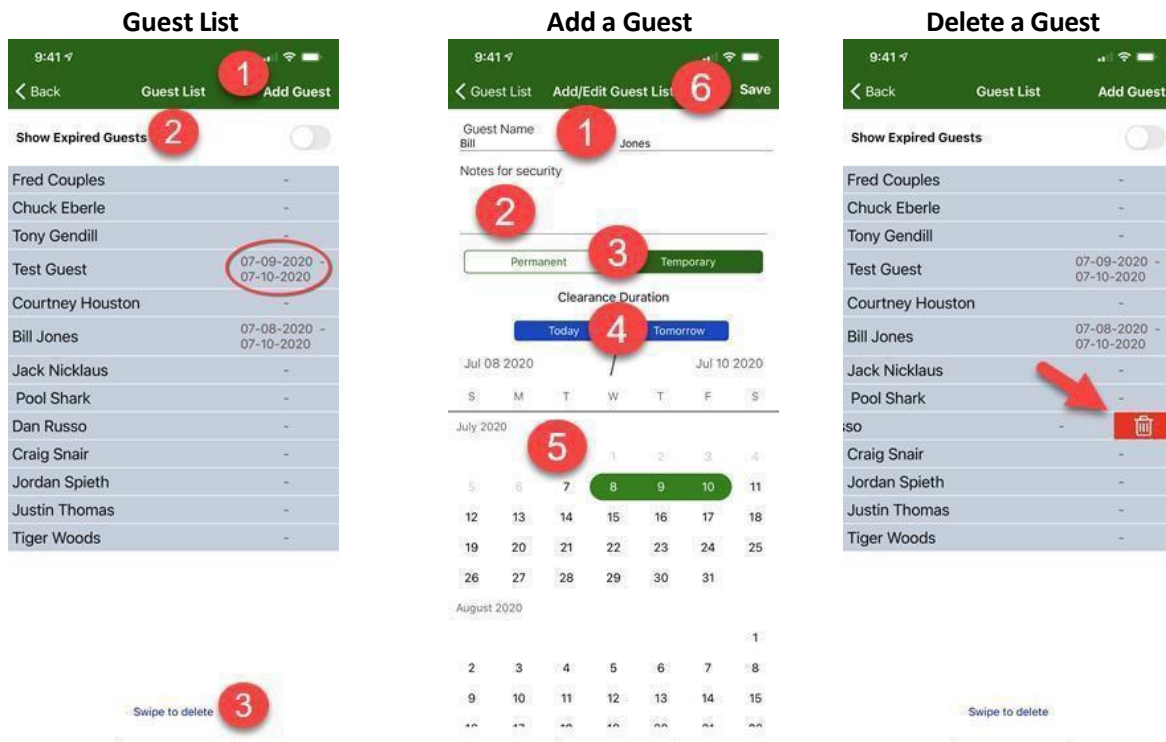

The list loads initially with all and current and future guests. As expired guests do not show by default, to view them, slide the **SHOW EXPIRED GUESTS** slider to the ON position (2).

To **ADD** a guest, click on Add a Guest on the upper right corner (1).

When adding a guest, enter the last name, first name (1), and security notes if applicable (2). **TEMPORARY** is the only option (3), so you cannot select **PERMANENT** for any guest. You may select a quick entry - (today/today) for a one-day pass or (today/tomorrow) for a two-day pass (4), or click the start date on the calendar, and the end date on the calendar (5). Once done, click on **SAVE** on the upper right corner (6).

To modify a guest, simply click on the guest's name under the **GUEST LIST**.

To **DELETE** a guest, from the guest list, swipe the guest's name from right to left to reveal the **DELETE** button, and click on it.

Adding a Contractor Pass

To ADD a contractor, follow the same instructions as adding a Guest, but check the Vendor box, which is located under Notes for security.

Remember, contractors are only eligible for a one-day pass.

Guest Passes may not be used for contractor work. If entering a pass for a contractor or service provider, the "Vendor" box must be checked.

The screenshot shows a mobile application interface for adding a contractor pass. At the top, the status bar shows the time 10:24 and signal strength. Below the status bar is a navigation bar with a back arrow, the text "Add/Edit Guest List", and a "Save" button. The main form area contains the following elements:

- Guest Name:** Two input fields labeled "Last Name/Company" and "First Name".
- Notes for security:** A text input field.
- Vendor?:** A checkbox.
- Temporary:** A green button.
- Clearance Duration:** Two blue buttons labeled "Today" and "Tomorrow".
- Start Date / End Date:** A date selection interface with a grid of days for April 2022. The date 21 is highlighted.

April 2022						
S	M	T	W	T	F	S
					1	2
3	4	5	6	7	8	9
10	11	12	13	14	15	16
17	18	19	20	21	22	23
24	25	26	27	28	29	30

How to Send a QR Code

After adding and saving a guest, a window will pop-up asking if you would like to send a FastAccess Pass. (A)

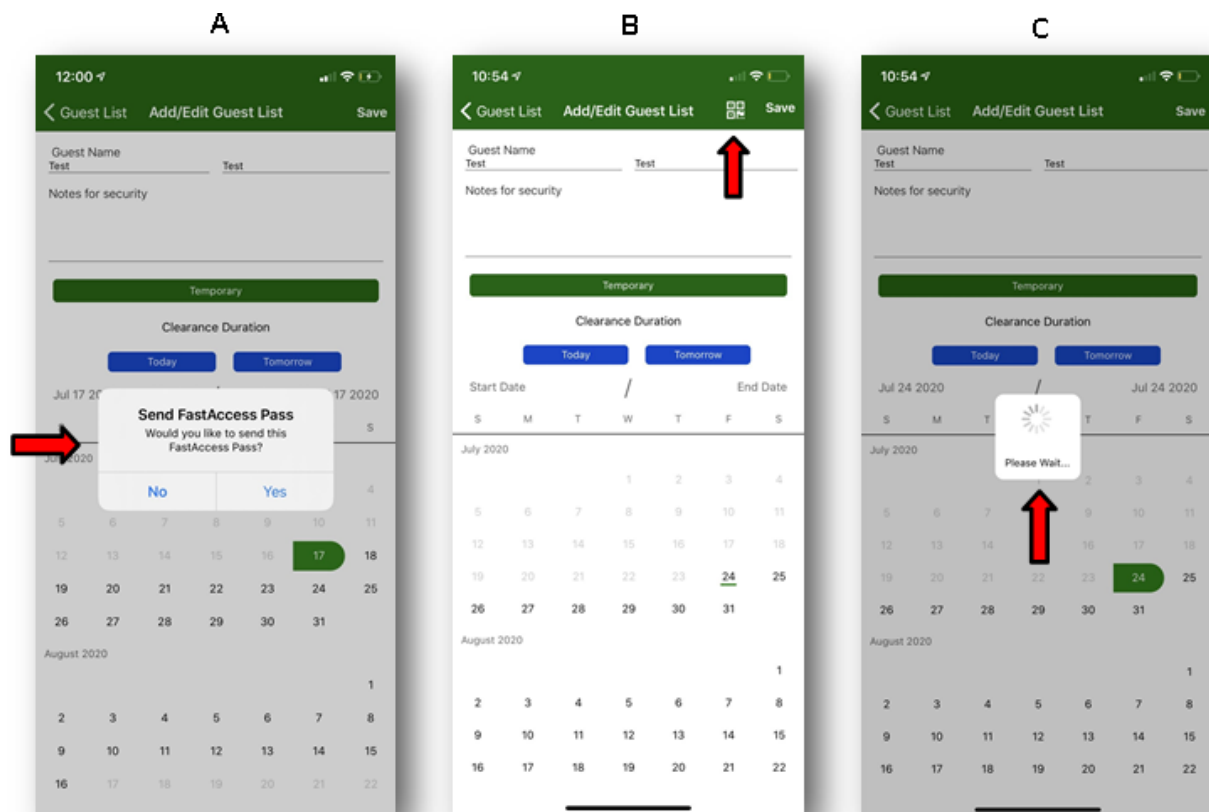

Once you select YES, a list of options will pop-up on how you will send the QR code. You can send the QR code by text or email.

You may also send a QR code from Guest List screen. Select the guest you would like to send the QR code to, and it will take you back to the Add Guest screen.

To the right of where it says Add/Edit Guest List, you will see the QR code icon (B).

Click on the icon and it will pop-up the list of options on how you would like to send it. There will be a delay before those options pop up (C).

Choose the method you will send the QR code, and it will appear in the body of the message. Enter the recipient's contact information and hit send.

Guest Arrival Notification Settings

Residents may choose to be notified on Guest arrivals. There are three types of supported notifications: emails, text messages and push notifications. Residents may choose to receive (or not) any combination of the above choices. The notifications allow for increased security as residents get alerted when someone is logged to his or her property.

NOTE: if the entry is NOT logged in by the security officers, or if it is logged in to a different address (for example, a pool service company who services many homes in the community), then no notification will be sent to the resident.

Select ALERT ALL to receive EMAILS, select a valid provider to receive text messages, and log into the app from a qualified device (iOS/Android of recent releases) to receive push notifications.

Community Info, News and Documents

When you click on Community Info and News from the Main Menu, you will see important information from SIPOA. You may see links for Board meetings and other items, but at this time, links are not active in the app. To view the linked information, you must log into the GateAccess website.

Documents, such as minutes from board meetings, board agendas and committee minutes are available on the Main Menu under Documents. Simply click on View PDF and another screen will open with the document you selected.
